Dear Ladies and Gentlemen from the FCC,  
I am a XM system owner and have been informed that the local FM/AM providers are attacking my rights to receive localized information via my XM receiver. I hereby urge you to reject the following NAB's petition: 04-160.

How I receive information is my choice and my right. Information must never be stifled. Knowledge has made America the greatest nation on Earth. Please don't cause us damage by damaging that flow!

Additionally, THANK YOU very much for your ongoing efforts to keep the airwaves segregated, clean, and useful. I do appreciate how difficult that has historically been! BUT, it is not up to you to decide WHAT the information content of those "bands" are.

Sincerely,

Roger W. Vernon
